Internship

AI Intern **Jan 2026 – Mar 2026**
Infosys Springboard

- Analyzed **multi-dimensional sales datasets using SQL and Pandas** to optimize strategies for small businesses, identifying **3+ key profitability drivers and operational gaps**.
- Built a **robust data pipeline** involving data cleaning, preprocessing, and Exploratory Data Analysis (EDA) using **NumPy and Pandas**, improving dataset quality and reliability for modeling.
- Developed **interactive visualizations and profit analysis reports** using **Matplotlib and Seaborn**, transforming complex datasets into actionable insights for decision-making.
- Implemented **machine learning forecasting models** to predict future sales trends, improving forecasting accuracy and helping businesses plan upcoming quarters effectively.

Projects

Brain Tumour Detection / *OpenCV, NumPy, Pandas, SQL, Machine Learning* **Feb 2026 - Mar 2026**

- Developed a **machine learning model** for brain tumor detection from MRI images using advanced image preprocessing techniques in OpenCV.
- Achieved **93% accuracy** and reduced misclassification by **27%** through optimized feature extraction and model tuning.
- Built a **Streamlit-based web application** for real-time prediction with **<1 second inference time per image**.
- Evaluated performance using **precision, recall, F1-score, and confusion matrix** to ensure reliable predictions.
- Github Repository Link: https://shorturl.at/nZELk

Small Business Sales & Profit Analyzer / *MySQL, Pandas, Matplotlib, scikit-learn* **Jan 2026 - Feb 2026**

- Executed this project during the **Infosys Springboard Internship**, leveraging Docker for containerized deployment.
- Developed an interactive sales and profit analytics dashboard to analyze revenue trends, product performance, and profitability.
- Integrated **MySQL with Python** for efficient data storage and querying, handling **10,000+ records** for analysis.
- Applied **scikit-learn (Linear Regression/Random Forest)** for profit prediction and sales trend forecasting.
- Built dynamic visualizations using **Streamlit and Matplotlib**, improving KPI monitoring and analysis efficiency by **35%**.
- Github Repository Link: https://shorturl.at/KyUFZ

Certificates

Cloud Computing **Oct 2025**
NPTEL — *Link*

Advanced Python for AI and ML (Summer Training) **Jun 2025**
CSE Pathshala — *Link*

Technical Skills

Languages: C++, Java, Python, SQL, Bash/Shell Scripting
Technologies/Frameworks: **Scikit-learn**, **TensorFlow, Keras**, OpenCV, **XGBoost**
Tools & Platforms: Git, GitHub, **MySQL**, **Linux (Ubuntu)**, **Jupyter Notebook**, **Power BI**, **AWS**, **Hadoop**
MLOps & Deployment: Docker, Flask, **Streamlit**, Model Deployment
Soft Skills: Problem Solving, Communication, Team Collaboration.

Achievement

Innovate X Hackathon – Top 10 Finalist:
Reached the final round in the Innovate X Hackathon out of 120 teams.

Data Structures & Algorithms:
Solved **300+ algorithmic problems** on LeetCode and GeeksforGeeks covering arrays, strings, linked lists, stacks, queues, trees, graphs, dynamic programming and strong grasp of time–space complexity.

Competitive Programming: Global Rank 252 in LeetCode Weekly Contest 468 (34k+ participants).

Education

Lovely Professional University **2023 – Present**
Computer Science and Engineering — CGPA: 8.25 *Jalandhar, Punjab*

Manisha International School **2022 – 2023**
12th with Science — Percentage: 82.60% *Durgapur, West Bengal*

Satyanarayan Academy **2020 – 2021**
10th with Science — Percentage: 80% *Durgapur, West Bengal*
